Lab Services Drinking Water Bid Clarification

- Question: What is the method numbers for the SOC's
 - Answer: methods attached separately

- Question: What is the incumbent lab's name and pricing?
 - Answer: the bid tabulation and award information for the current vendor can be found by scrolling down the "Bid" information on the HWU website, finding the previous bid information. However, the new bid document does have different criteria than the current bid.

- Question: Is the measurable criteria out of a possible 100 points?
 - Answer: Bid will be awarded by overall lowest estimated cost per year as submitted by a responsible bidder.

- Question: Do you currently ship your samples, or receive courier service?
 - Answer: We currently ship our samples to lab.

- Question: Is HWU willing to accept alternative Terms & Conditions language if requested by bidder?
 - Answer: Item 3 on page 9 indicates that, by signing the bid, the bidder agrees to the terms and specifications within the bid document. It is the right of the bidder to submit with their bid, on a separate sheet, a list of exceptions to our specifications. HWU will then determine if those exceptions are critical or non-critical. If they are determined to be critical the bid will be deemed non-responsive.
